

Year 2 – Independent/Home Learning Tasks

Friday 26th February 2021

If you get stuck or technology does not work, don't worry. There is lots of learning you can still do, but it is important that you do some learning every day so that we don't get behind.

Your parents can email us if they have any problems.

ayun@attleboroughprimary.org.uk

Any resources you need for lessons will be on the school website.

Click on the 'parent' tab, then 'home learning' and your 'class' page. Here are today's learning tasks!

IMPORTANT:

There will not be online Teams learning sessions on Thursday afternoon for Ladybird and Bumblebee Classes - science activities will be on the website.

Following on from parental feedback, our Friday afternoon sessions for both classes will be at 1:15pm only. Please follow links previously emailed to you.

Other Curriculum Learning

With an adult, make some pancake batter mix and see if you can flip your own pancake! You could write a set of instructions for your teachers to follow so they can make a yummy pancake too.

Set up a pancake race at home or in your garden. Add some obstacles to make it more challenging.

Write a message of kindness to one of your friends in the class. If you ask your teacher, perhaps you can read it out to a friend at the end of a Teams lesson.

Learn to tie your shoe laces. Can this be filmed for your friends to learn?

Using lego, playdoh or anything else, create and film your own adventure story. Email it to your teacher and maybe she can share it on a Teams lesson!

Search cosmic yoga on YouTube and learn to relax. What else can you do to relax yourself?

Create a spring picture using paint, crayon or pastel.

Have a look at the Reading Bingo below and the Spelling Bingo on the school website – see which ones you can complete over the next few weeks.

#WALKING FROM HOME

WALKING ACTIVITIES FOR PRIMARY SCHOOL-AGED CHILDREN

LET'S WALK TO SCHOOL

PROTECT

Our 'Protect' activities are all about appreciating the wildlife around us and thinking about what we can do to protect it. Get involved and share your experiences on social media!

MIND THE LITTERBUGS

AGES 4-7

Litter looks ugly and is bad news for wildlife, but unfortunately, it's hard to miss when you go out for a walk.

With some gloves, wet wipes and the help of a parent or carer, can you fill a carrier bag with the litter you come across on your walk?

When you're done, dispose of the litter responsibly and work out what waste can be recycled and how!

MAKE YOURSELF AT HOME

AGES 8-11

Places that animals call home are everywhere, from bird nests up high, to rabbit holes down low. What signs of life can you spot when you go for a walk, and how do the nests and dens you see protect the animals that live there?

After your walk, try creating a model home for an animal of your choice. What comforts and protections would you give them and why?

INDOOR CHALLENGE

Making a bird feeder is one of the simplest ways to support local wildlife, while also finding new uses for old rubbish. Using a plastic bottle, pencil, scissors, seeds and string, have a go at creating your own and hanging it outside your home.

Look online if you need some tips, and don't forget to look out for new visitors!
