

Adding two and three numbers

$$\begin{array}{r} 365 \\ + 129 \\ \hline \end{array}$$

$$\begin{array}{r} 300 & 60 & 5 \\ + 100 & 20 & 9 \\ \hline 400 & 80 & 14 \end{array}$$

THINK Before doing these additions, predict which will have ten or more 1s and will mean a 10 must be moved.

Use the expanded method shown.

1 $\begin{array}{r} 325 \\ + 246 \\ \hline \end{array}$	6 $\begin{array}{r} 484 \\ + 408 \\ \hline \end{array}$	11 $\begin{array}{r} 367 \\ + 125 \\ \hline \end{array}$
2 $\begin{array}{r} 623 \\ + 118 \\ \hline \end{array}$	7 $\begin{array}{r} 335 \\ + 259 \\ \hline \end{array}$	12 $\begin{array}{r} 258 \\ + 651 \\ \hline \end{array}$
3 $\begin{array}{r} 474 \\ + 309 \\ \hline \end{array}$	8 $\begin{array}{r} 558 \\ + 427 \\ \hline \end{array}$	13 $\begin{array}{r} 356 \\ + 627 \\ \hline \end{array}$
4 $\begin{array}{r} 515 \\ + 367 \\ \hline \end{array}$	9 $\begin{array}{r} 286 \\ + 363 \\ \hline \end{array}$	14 $\begin{array}{r} 33 \\ 23 \\ + 18 \\ \hline \end{array}$
5 $\begin{array}{r} 467 \\ + 162 \\ \hline \end{array}$	10 $\begin{array}{r} 145 \\ + 783 \\ \hline \end{array}$	15 $\begin{array}{r} 25 \\ 37 \\ + 34 \\ \hline \end{array}$

I am confident with adding 2- and 3-digit numbers using the expanded method.
