

Monday 11th January 2021

Dear Miss Salter,

I am writing to you today to explain and persuade you as to why you should use my basket to carry your fruit.

I feel sure that you will like it because it is strong and sturdy.

For instance, I made sure that I folded the newspaper carefully and had the right number of strips. So as to make sure it was strong, I wove the strips together tightly and used strong glue and sellotape to fix them. The gaps between the strips are small so the fruit can't fall out.

In addition, my basket is made out of newspaper which I means I have re-used and re-cycled it. In other words, my basket is environmentally friendly.

Without a doubt, my basket is the best basket you will ever have!

For all these reasons, I hope you enjoy using it.

Kind regards

Mrs McDaniel

P.S. Please see the picture of my basket below and don't forget, do not take it out in the rain!
