

Task for day 5

You will be experimenting to create a bag for drinking.

1. If you have a small food bag, try and fill it with water and try to drink from it.
2. What was it like?
3. What were the problems when drinking? Note these down.

Collect from around your house, a selection of plastic bottles of different shapes and sizes, cartons with different types of seals, foil pouch drinks such as Capri-Sun, Fribe tubes etc.

1. Look at the drinking containers in front of you.
2. What do you think of each design?
3. Jot down your thoughts on the next piece of paper you use for writing. (Don't forget you are keeping all of your pieces of paper you have written on for English.)
4. List what you think a good plastic bag drinking container should be like. (waterproof, etc)
5. Can you make the drinking bag stronger and easier to use?
6. Design a better drinking bag and try to make it
7. Write down what you did to improve the bag/drinking container.
8. Be ready to share with the class if you feel you want to .
