

## Evaluation Question List:

- Does it meet the design criteria?
- Is it a stable structure?
- Does it let enough sunlight in?
- Are the joins secure and airtight?
- Have appropriate materials been used?
- Could the plants be easily watered?
- Could it be ventilated?
- Is the structure an appropriate size and shape?

Answer these questions about your Mini greenhouse. Remember not to give just one word answers. Explain why.

Think about what plants you might grow in your greenhouse.

What seeds can you plant?  
What will they need to grow?
