

Game On! Instructions

 Taking turns, roll the dice. Move the desired amount of space on the board and complete the calculation. If your answer is incorrect, miss a turn. The first person to the end wins!

 Taking turns, roll the dice. Move the desired amount of space on the board. Complete the calculation. If your answer is incorrect, miss a turn. If you land on a blank square, your partner gives you a calculation. The calculation should be a 3-digit number, add or subtract a 2-digit multiple of 10. For example: $464 + 80$. The first person to the end wins!
