

Year 3 Maths 03.02.21 - Gold Challenge

1) Complete this number fact to 100 using the digits 1 to 9.

$$\square \square + \square 9 = 100$$

- How many different ways can you find?
- What patterns can you spot?
- Explain the patterns.

2) Fred has £1 to spend at the shop. Which combination of items could he buy if he spends all his money? Find as many possibilities as you can.

b) Design your own shop with prices that use number facts to 100.
