

## Can I draw a bar chart?

Favourite Sport	Number of Children
Tennis	16
Hockey	25
Karate	12
Rugby	8
Football	36
Cricket	23

Here is your data.

Using squared paper, draw a bar chart to show the information in the table. Think about:

- Scale on the Y axis
- Title
- Labels for each axis
- Label for each bar
- Different colours for each bar

Draw a bar graph with all the features

Draw a bar graph with all the features and answer the following questions:

1. How many children are there in total?
2. What is the favourite sport?
3. How many more children like Hockey than Rugby?
4. How many children like sport that plays using a ball?
